ORGANIC

Beauty Awards

'OBA' in brief

Organic Beauty Awards purpose is to make more people discover and use natural, organic cosmetics.

Beauty products which are efficient as well as good for people's health and well-being and produced in a sustainable way.

The basic criteria for participation is that the product is certified with a label that guarantees that the product fulfills criteria's for what can be considered natural and organic. If a brand lacks certification our quality controller reviews the product.

The jury tests and nominates those products which has the highest scores in terms of effect, feel, application and design. A special jury assesses sustainability and content.

With Organic Beauty Awards we want to highlight and reward brands who manufacture and market the creme de la creme of NOC products.

With Organic Beauty Awards we also strive to aid the consumer in finding the best NOC products available – a win in OBA, is an extra quality stamp.
